

Real Safety Real Simple

Cloud Based Safety Management Software

CLOUD BASED - CROSS DEVICE COMPATIBLE

All-in-one

PLAN - DO - CHECK - ACT

Time-saving Tools...

Safe Operating Procedures (SOPs)
Identify tasks, potential hazards and control measures for repeat activities and processes.

Jobs and Permits
Identify relevant SOPs and assess any additional work specific tasks for the performance of work on a job.

Inductions
Delivery of the PLANNED arrangements (recorded in SOPs and Work Permits) to workers using automated slideshows and tracking competency and training.

Diary Notes
Remind workers of the PLANNED arrangements and record their attendance and personal health self-assessment.

Reviews
Verify the use and effectiveness of PLANNED arrangements (recorded in SOPs and Work Permits) using automated checklists.

Actions
Address gaps or improve the effectiveness of existing control measures.

+ Hazard and Incident Reports
+ Consultations

A clean workflow solution that is simple and easy to use

Streamline and simplify managing
safety in ~~your workplace.~~
on your Farm!
